

# GERMANY DENIES CAUSING WAR MARX RETRACTS HER ADMISSION OF WAR GUILT FLIERS REACH BOSTON INVADING ARMY REPULSED AFTER A LONG BATTLE

Issues Proclamation to Allies, Declaring a Change in Policy Regarding London Agreements—Herriot in Reply Says France Will Change Attitude.

(By The Associated Press)  
GENEVA, Sept. 6.—Prime Minister Herriot of Great Britain today received a letter from Chancellor Marx of Germany, declaring he felt obligated to publish immediately the proclamation of Germany refusing all responsibility for having caused the world war.

Chancellor Marx added that publication of the proclamation, which retracts Germany's admission of war guilt, was necessary to avoid hindering the negotiations at the recent international conference in London, but that it would lead to a change in the policy of Germany regarding the agreements signed in London.

As soon as he had received the letter, Herriot made known to the German government that the letter had made a bad impression upon him and indicated the probable consequences of the publication would have in connection with the attitude of the French government.

## Seek Adoption of Amendment to City Liquor Law

Steps are being taken by certain city officials looking to the incorporation in the city ordinance dealing with violations of the liquor law, a clause which will make it possible to deal with persons charged with driving while intoxicated. The amendment to the state law, has been incorporated virtually "en bloc" as a city ordinance but that provision dealing with drunken drivers is not included and it has been pointed out to the council during recent weeks, this has resulted in nearly \$1,000 being diverted from the city treasury to the state.

The whole purpose, it may be said, of adopting the Layman act as a city ordinance is to prevent the state from getting the fine money from convictions under that statute.

City Attorney Aiken who drew the city ordinance patterned after the Layman act was asked about the situation this morning and he explained that failure to include the clause was not an oversight but was purposely omitted. He said that the city traffic ordinance includes a provision dealing with this and that the police magistrate can find any person convicted under the city traffic ordinance and save this money for the city.

Section 502 of the traffic ordinance provides that when any person is found driving a car in an intoxicated condition on the streets of the city, the magistrate may revoke the license for such a period as he may deem fit. He can impose a fine of not less than \$100 and not more than \$500, or he can confine the convicted person in jail "not exceeding six months or both."

The magistrate is not obliged there to impose a jail term as is prescribed in the Layman act.

That clause of the Layman act (section 25) which deals with this class of offense, is not included in the city ordinance for it provides that this offense shall be a misdemeanor, punishable by a fine of not less than \$100 and not more than \$1,000 and imprisonment of not less than 30 days and not more than 60 days. The ordinance is authorized, "in a proper case," to suspend the jail term. The foregoing applies only for the first offense. For a second offense there is no fine but upon conviction a full term must be imposed—not less than six months and not more than two years with the automatic revocation of the driving permit for a period of one year.

## Mrs. Pattie Dodd Dies at Hinesville

News was received here this morning of the death of ten o'clock last night at Hinesville, Ga., Mrs. Pattie Dodd, one of the oldest and best known residents of that community. Mrs. Dodd was 70 years of age and had been in declining health some years and had been a great sufferer from asthma. She was married to John Dodd, who died several years ago. She is survived by the following children: J. C. Dodd, Danville; Mrs. Bud Bryant, Fort Fork; Oscar Dodd, Danville; Mrs. K. Hines, Danville; Clyde Dodd, Wm. Thomas Dodd, Mrs. Chas. Harvey, Herbert Dodd, Miss Rovena Dodd, W. R. Dodd, Jones Dodd and Mrs. Chester Blair. The funeral will be held Sunday afternoon at the family burial ground.

## FUNERAL FROM CHURCH

The funeral service of Mrs. William Ernest Dodd will be held on Sunday afternoon at three o'clock from Keen Street Baptist church, by Rev. Jesse R. Hite and Rev. J. Clyde Holland. Interment will take place in Leemont cemetery.

## NEW U-DRIVE-IT CONCERN

The Central U-Drive-It Corporation, a new automobile concern, which rents cars for private use, has opened its doors on Patton street, next to the courthouse. The concern has all new cars and specializes in renting machines for business and pleasure purposes.

## TOWN TOPICS

The Finance Committee of the City Council will meet at half past two o'clock this afternoon to draw up report to be presented at the meeting next Wednesday night. It will seek to devise a means of paying for the paving of Spring Street at a cost of about \$7,000.

C. S. Wheatley, principal of Robert E. Lee school this afternoon will be at that institution between 4 and 5 o'clock to consult with parents who might wish to enter new pupils for the coming year, also to confer with new teachers of that school.

Patton street firemen were called by telephone at 9:30 o'clock this morning to the home of Martha Grant colored, 524 Gay street, where a choked chimney created a smoke scare.

## REST ROOM AT FAIR GROUNDS JUST FINISHED

Executive Committee Has Decided Against Grand Stand Addition

Henry B. Watkins, secretary of the Danville Fair this morning announced completion of a new rest room, which has been built on the Fair grounds for the accommodation of patrons. The new building, 24 feet by 18 has been built between the Merchant's Building and the main building. It is well equipped with tables, chairs also a cot for emergency treatment of persons taken ill on the grounds. In addition there will be a small room where Fair patrons can leave their packages while they are on the grounds.

In addition to this innovation, a new ticket office has been built at the grand stand which will relieve the congestion when admission is sought. The executive committee has definitely decided not to add a new section to the grand stand as was recently proposed. The present structure holds 2,600 persons. Mr. Watkins says, and no immediate need for an addition is seen this year though it may be undertaken next year.

Mr. Watkins has just returned from Staunton where he witnessed the fair which has been held there this week. While away he made arrangements for some of the exhibits. General speaking, Mr. Watkins declared the preparations for the Danville Fair beginning October 14th and lasting four days, four days, to be well advanced and given good weather he looks for a successful undertaking. "The fair is being run by the Association," he said this morning, "the entire surplus of the fair will pay no dividends to stockholders but all profits are turned back into the Fair Association in order to improve it from year to year and to increase the size of the premiums."

## Civil Docket Is Set; Stephenson Wins Acquittal

With virtually all of the criminal cases docketed in the corporation court disposed of, excepting only one, the city clerk today announced that the city liquor ordinance which will be heard Monday, Judge Withers this morning set the civil docket.

More than 100 cases are on the docket but many of them are trivial and will not take long to dispose of. One of the oldest and best known residents of that community, Mrs. Dodd was 70 years of age and had been in declining health some years and had been a great sufferer from asthma. She was married to John Dodd, who died several years ago. She is survived by the following children: J. C. Dodd, Danville; Mrs. Bud Bryant, Fort Fork; Oscar Dodd, Danville; Mrs. K. Hines, Danville; Clyde Dodd, Wm. Thomas Dodd, Mrs. Chas. Harvey, Herbert Dodd, Miss Rovena Dodd, W. R. Dodd, Jones Dodd and Mrs. Chester Blair. The funeral will be held Sunday afternoon at the family burial ground.

M. Stephenson, local druggist was acquitted by a jury yesterday of selling liquor without a prescription. The proceeding was instituted by W. T. Shelton, state prohibition inspector who is said to have failed to find evidence for the alleged sale. The state was unable to produce a witness who could testify that any sale had been actually made.

I. W. McDaniel was tried yesterday on the charge of violating the state liquor law by driving his car while intoxicated. It was in this accident that G. W. Yeatts was virtually scalped by McDaniel's car and W. B. Lewis also badly hurt when both men were struck by the machine just beyond the Dry Bridge. McDaniel pleaded guilty to this charge and was sentenced to serve a month in jail and to pay a fine of \$100, the sentence being suspended.

Another charge of unlawful wound resulted in his conviction and he was ordered to pay a fine of \$5 and to serve sixty days in jail. He was allowed credit for the thirty-five days he has remained in jail pending trial. There was medical evidence to show that McDaniel is suffering from tuberculosis in both lungs, that his wife is ill and that he is the only means of her support and the supplied that he met two men in the road who offered him a drink of whiskey after which he had no very clear idea what had taken place.

## RESUME FLIGHT AFTER DELAY AS RESULT OF FOG

Pandemonium Breaks Loose as Birdmen Alight in Harbor

(By The Associated Press)  
BOSTON AIRPORT, Sept. 6.—The American round-the-world fliers alighted safely here today at 1:09:42 and 1:00 p. m. Eastern Standard Time, after a 125 mile jump from Mere Point Maine.

The planes alighted in the following order: Lieut. Love H. Smith's craft leading; second, Lieut. Leigh Wade, and third, Lieut. Erik Nelson, in the Chicago, Boston II and New Orleans respectively.

On land and among the harbor craft pandemonium broke loose.

## START DELAYED

(By The Associated Press)  
MERE POINT, Me., Sept. 6.—The start of the world fliers from here to Boston was delayed this morning by discovery that their gasoline supply was short of the amount that Lieut. Smith felt necessary to supply the necessary margin of safety. An order for immediate delivery of 75 gallons was sent to Brunswick, seven miles away.

Word was received that the nearest point from which the gasoline could be obtained was Bath and that it would take an hour to bring it here. The planes of General Patrick, commander of the air service, and Lieut. Wade, flew over the mountains of the fliers at 8:22 Eastern Standard Time, heading out to sea after swinging over the islands.

General Patrick swung around in circles in greening the harbor, while the fliers flew over the southwest side of Mere Point over Sisters Island and southeast across Asco Bay and many of the 365 islands with which it is dotted to the open sea and down the coast past Portland and Old Orchard.

## WEATHER FAVORABLE

(By The Associated Press)  
MERE POINT, Me., Sept. 6.—Lieut. Lovell H. Smith commander of the three world circling planes, which left here this morning before 8 o'clock daylight time left with his two companions for the cove in which the planes were moored overnight.

Weather reports were favorable. Lieut. Smith estimated the distance to Boston by air line was 120 miles, and expected to make it inside of "two hours. One of the planes needed slight attention over the morning of the fliers at 8:22 Eastern Standard Time, heading out to sea after swinging over the islands.

The sun rose in a clear sky and a light breeze rippled the ocean. The fliers were up at 7 o'clock, daylight time, and took a simple breakfast with the overnight hosts. Lieutenants Smith and Arnold were at the home of Nelson P. Chase, of Belmont, Mass. Lieutenants Nelson and Harding stayed with Captain Sohier, of New York City and Lieut. Wade was the guest of Prof. F. W. Brown of Bowdoin college. Lieut. Ogden slept at the home of Dr. J. S. Stetson of Brunswick.

When they made their landing here forced down by fog in Casco Bay last night, the world cruisers had covered 21,241 miles of their world tour and had a 120 mile jump to Boston before them. Out of Seattle—the official starting point of the flight—14 months to a day, the fliers turned up this morning for the first leg of the American part of their flight. The five months included 42 actual flying days and 286 hours and 21 minutes on the wings of their ships.

Lieutenants Smith and Arnold were ahead of their fellow fliers and went out to the Chicago, the flagship of the fliers, the crews of the "two" planes were at breakfast. They learned that the New Orleans, anchored in a more exposed position had drifted her anchor during the night.

Summer people here had kept watch overnight, reported it to be Lieutenant Nelson, of the New Orleans, who had to get up in the middle of the night and make the moonlight fast.

## FLIERS DROP MESSAGE

(By The Associated Press)  
OLD ORCHARD, Maine, Sept. 6.—The world flier at 11:25 Standard Time, appeared over Prout's Neck and headed for the several mile long beach here. Several of General Patrick's planes had taken the air and the others were following rapidly to escort them to Boston.

Lieutenant Nelson, flying very low, dropped a message in a leather case for Captain Harry M. Jones, almost at his feet as his hanger here. "Greetings from the world fliers, en route Picton, N. S. to Boston, Mass., U. S. A."

"Here is our answer to the question, 'are you glad to be back?' 'Hello! Everybody! You bet we are glad to be back. Regards from each."

It was signed by Lieut. Smith and all his companions.

Lieutenant Smith and Nelson are personal friends of Captain Jones.

## A Fast Stepper at 83!

John A. Parker, 83, of Tacoma, Wash., traveled all the way to Chicago in search of the Fountain of Youth. And judging from this picture, he found it. Now he is proving himself quite some stepper. He is going to learn to trip off all the latest dances. But just to get back into practice, he's rehearsing with Mildred Streiberg, the old "buck and wing," in which he says he was quite proficient half a century ago.

## PRESIDENT CALLS UPON PEOPLE TO STAND FIRMLY BEHIND AMERICAN IDEALS

(By The Associated Press)  
BALTIMORE, Md., Sept. 6.—President Coolidge called upon the American people in a Lafayette day address here today to take a stand against "a deliberate and determined effort" which he said "is being made to break down the guarantees of our fundamental law through a movement of encroaching upon the power of the courts."

Speaking at the unveiling of a statue of Lafayette, the President characterized the great Frenchman as "a true son of American freedom" and asserted that "this occasion is dedicated to freedom."

"The question is," he declared, "whether America will allow itself to be degraded into a monarchical and autocratic state, or whether it will remain American. Those who want to continue to enjoy the high estate of American citizenship will resist all attempts to encroach upon their liberties by encroaching upon the power of the courts."

While devoting his address primarily to a defense of the United States Supreme Court, the president drew a lesson on the French leader who joined us in fighting for the maintenance and extension of our institutions, and proposed a policy of service in foreign relations. He pleaded also for assistance in the restoration of the German people, now short of militarism.

Referring to the supreme court, Mr. Coolidge said it is "our duty" to stand firmly behind the principles of the Constitution, and to resist all attempts to encroach upon the power of the courts. "The question is," he declared, "whether America will allow itself to be degraded into a monarchical and autocratic state, or whether it will remain American. Those who want to continue to enjoy the high estate of American citizenship will resist all attempts to encroach upon their liberties by encroaching upon the power of the courts."

Mr. Coolidge said "to be independent in my mind does not mean to be isolated. There is no real independence save only as we secure it through the law service."

While avoiding entanglements, he pointed out that the United States had pursued that policy in contributions to foreign charities and in a counsel at the abolition tables in Latin-America, in adjustment of war problems in Europe, in the Washington armament conference and in the settlement of the reparations problem.

"The effect these will have in averting war and promoting peace," referring to the European situation, the president declared "if we can but work towards that end by assisting in the restoration of the German people now short of militarism."

Referring to the European situation, the president declared "if we can but work towards that end by assisting in the restoration of the German people now short of militarism."

## TUCKER TELLS OF INCREASE IN GEORGIA CROP

30 Million Pounds Sold, Three Times as Much as in 1923 Season

John L. Tucker, Danville warehouseman has returned from Tifton, Ga., where he has been conducting an auction house during the past week. He reports a tremendous increase in the Georgia acreage and a general average of 25 per hundred pounds paid for a crop somewhat inferior to the 1923 crop when approximately the same average prevailed.

Mr. Tucker stated this morning that all of the smaller markets closed yesterday but that the larger ones will continue to operate until the end of next week. He reports that the production in the state during the past year was thirty million pounds, or more than three times as much as was produced during the previous year. The farmers of that section, however, are not favorably disposed he says towards tobacco raising. They prefer cotton which is an easier crop to produce and which they are more familiar. For four years, however, they have been at a low bid economically and many of the farmers, ruined by the onward sweep of the boll-weevil, have turned to tobacco raising in a dire extremity. They are reported to be pleased with the return and Mr. Tucker thinks the average a good one considering the quality of the land and the added fact that it brought to market neither tied, nor graded.

The Georgia crop was freely bought by the large companies which foresee a great shortage in the Southern Carolina and the Eastern Carolina crop. In these two areas it is estimated that the crop this year will be one hundred million pounds less than a year ago. For that reason, Mr. Tucker continued, the large Georgia crop will not in any way interfere with the demand for leaf in the bright belt since it will not nearly make up the loss in the Eastern Carolina.

Charles B. Davis who has been at Quincy, Fla., has also returned after a successful season. He was his first experience in Florida, where market centres were opened this year. After the Florida season had been terminated Mr. Davis moved to Blackshear, Ga., and returned to Danville from that point.

General Lu's Men Repulse Severe Attack and Push Forward Several Miles in Counter Drive—Report Capture of Two Companies of Prisoners.

(By The Associated Press)  
SHANGHAI, Sept. 6.—The invading northern forces of Chih Shieh-Yuan, were repulsed on two fronts—at Hwangtu, 15 miles west of here and at Luho, 30 miles northwest of here—after a night battle with the Lu Yung-Hsiang forces defending Shanghai, according to announcement this morning from Chekiang headquarters.

In the Hwangtu section the defending forces claimed an advance of six miles was made along the railway line, besides the capture of two companies of the Kiangsu, Sixth division and four high officers.

Having fighting characterized the night battle which was carried on in the Luho streets and resulted in driving out the northern troops according to a communique issued by the victorious Chekiang army. The Chekiang announcement added that no opposition troops were to be seen today between Luho and Katinghsien, the latter point being nearer to Shanghai.

On the Shanghai-Han-chow Railway line near the Lung-hua arsenal, Chekiang headquarters, were blown up mysteriously during the night, cutting off communication through the line on which supplies for the front are being sent by the defensive forces.

## RICHMOND WINS ROTARY MEET IN MARCH 1925

Danville Members Made Keen Bid For Conference at Rocky Mount

Despite a game effort made by Danville Rotarians to win the 1925 thirty-seventh district conference, the event was awarded to Richmond by the club presidents and secretaries who met at Rocky Mount, N. C. on Wednesday. Danville was represented by A. A. Booth, president and John E. O'Leary, club secretary. They put such a keen fight that it was half past one o'clock Thursday morning before Richmond won the decision. Newport News was in the race but was disqualified for the same reason that Danville was. One of the first questions asked was how Danville could accommodate between twelve and fifteen hundred men who are likely to attend the event on March 25 and 26. The hotel situation was one of the most serious problems facing the club presidents and secretaries. The hotel situation was one of the most serious problems facing the club presidents and secretaries.

The work on which Rotary will concentrate next year will be a higher standard of business conduct, the application of the Golden Rule in business, the promotion of common honesty and a turning away from questionable short cuts.

## Revival Starts at Schoolfield Sunday

Beginning tomorrow night, a revival will be held for one week at the Schoolfield Baptist church, the services each night to be in charge of Rev. M. W. Rogall, of Fort Worth, Texas, but formerly pastor of Lee Street church here. The song service will be led by J. B. Winn and solos will be rendered by Fred Kennedy. The service each night will begin at 7:45 o'clock.

## Mary Browne to Meet Mrs. Hurd in Match Today

(By The Associated Press)  
NAYATT, R. I., Sept. 6.—Another athletic championship for the Pacific coast is a possibility today. Miss Mary K. Browne, former tennis champion who has made a sensational debut in national golf just after playing in the semi-finals of the women's national tennis tournament, today meets Mrs. Dorothy Campbell Hurd of Philadelphia, in the 36 hole final round for the women's national golf championship. However, Miss Browne has a formidable opponent in Mrs. Hurd whose record as a holder of golf titles is unsurpassed.

## General Lu's Men Repulse Severe Attack and Push Forward Several Miles in Counter Drive—Report Capture of Two Companies of Prisoners.

(By The Associated Press)  
SHANGHAI, Sept. 6.—The invading northern forces of Chih Shieh-Yuan, were repulsed on two fronts—at Hwangtu, 15 miles west of here and at Luho, 30 miles northwest of here—after a night battle with the Lu Yung-Hsiang forces defending Shanghai, according to announcement this morning from Chekiang headquarters.

In the Hwangtu section the defending forces claimed an advance of six miles was made along the railway line, besides the capture of two companies of the Kiangsu, Sixth division and four high officers.

Having fighting characterized the night battle which was carried on in the Luho streets and resulted in driving out the northern troops according to a communique issued by the victorious Chekiang army. The Chekiang announcement added that no opposition troops were to be seen today between Luho and Katinghsien, the latter point being nearer to Shanghai.

On the Shanghai-Han-chow Railway line near the Lung-hua arsenal, Chekiang headquarters, were blown up mysteriously during the night, cutting off communication through the line on which supplies for the front are being sent by the defensive forces.

The battle was carried on without naval cooperation which may become a factor in the fighting along the Shanghai harbor and river front at any time.

Leuho, normally a town of 8,000 residents, located 30 miles northwest of Shanghai, was a place of tens of thousands of Chinese homes today. A remarkable phase of the situation, according to those familiar with Chinese warfare was that the contents of the abandoned places remained intact, although the district is filled with soldiers.

A policy of non-interference in the warfare has been reported adopted by Chang Tso-Lin, war lord of Manchuria and his rival, Pei-Fu, head of the Peking government.

Fear that the powerful rival military leaders would rush forces behind the opposing armies of their favorite seem unwarranted, according to apparently authentic reports.

Word from Manchuria to Peking yesterday indicated that Chang Tso-Lin's attitude was one of sympathy for flood-swept, war-torn China. General Lu Pei-Fu issued a statement which indicated over to his army not being sent to the aid of the tuchun invading Shanghai. The temperate attitude of the Peking and Manchurian military men eliminates them as possible principals in the expected main event in China's civil war.

## GEN. CHI OFFERS BIG REWARD FOR GEN. LU

(By The Associated Press)  
SHANGHAI, Sept. 6.—General Chih Shieh-Yuan, commander of the Kiangsu forces, has issued a proclamation which is being circulated among the forces of General Lu Yung-Hsiang, offering \$50,000 to anyone who hands over General Lu to him, dead or alive. He places a similar amount at the disposal of any officer of the opposing forces who shall desert and bring his entire regiment over to his side.

Twenty thousand dollars will be paid for a piece of field artillery, a like amount for an airplane and \$1,000 for a machine gun. Finally, two months' pay is promised to the ordinary soldier who deserts to his side.

The proclamation accuses Lu of crimes "as big as a murderer, robber, rascal" and promises a reward of \$50,000 to anyone who hands over General Lu to him, dead or alive.

Yesterday a final effort to win over his enemy's men, General Chih says to them "I sigh for you."

## WEATHER FORECAST

(By The Associated Press)  
WASHINGTON, Sept. 6.—Virginia: Fair tonight; Sunday, fair and warmer.

North Carolina: Fair tonight; slightly cooler in extreme east portion; Sunday, fair, warmer in west portion.

## FROST IN ROANOKE

(By The Associated Press)  
ROANOKE, Va., Sept. 6.—From a temperature of 57, the hottest of the year, last Monday, to frost this morning is the chance which weather in this section has undergone in five days. Farmers coming into the city this morning reported a heavy frost in some sections.

THE OBLIGATION OF EN-  
FRANCHISEMENT

The movement already begun in

Danville to impress upon every qual-  
ified voter the obligation he owes to  
the community no less than the na-  
tion to exercise his enfranchisement  
is timely and of importance. We  
note that the project is being foster-  
ed in nearly all of the cities and is  
an indication of the growing realiza-  
tion of the amazingly low proportion  
of the masses who actually play their  
part in electing men and women to  
office. Election figures in Danville  
of recent years, especially since the  
great body of enfranchised women  
has swelled the voting list have  
shown only too clearly that a small  
minority of those qualified are play-  
ing a part in the periodic balloting.

About one-fifth of the voters of the  
city participated in the June election,  
which was purely a local affair and  
which should have engendered an  
even greater degree of interest.

The movement is entirely non-par-  
tisan. That should be firmly grasped  
at the outset. The placards and no-  
tices which soon will greet the eye  
will emphasize the duty of voting no  
matter what his or her political pre-  
ference is. The foundation of the un-  
derlying is to awaken realization  
that every man and woman who is  
qualified to vote is a cog in the na-  
tional electorate, owes it to the na-  
tion, state and community to play a  
role in determining the choice. As-  
suming that the movement spreads—  
and it is being promoted by the  
Chamber of Commerce everywhere—  
it should have highly beneficial ef-  
fect and probably will be a factor  
in accumulating the greatest num-  
ber of ballots ever cast in a national  
election.

THE COST OF CRIME

Word from Chicago is that the

Loeb-Leopold hearing will cost that  
community not less than \$600,000.

That sum is less than a regular trial  
would have cost, but it is illumina-  
tive in that it informs the public, not  
only there but everywhere, that crime  
is enormously expensive in dollars  
and cents, to say nothing of its hid-  
eousness.

Chicago now has attained a record  
of a murder a day. Not all of these  
crimes will entail such expenses as  
are attached to the Loeb-Leopold  
hearing, but no one of them will fail  
to take its money toll from the pocket-  
book of the taxpayers.

And what is true in Chicago is also  
true in every other community where  
crimes great or small, are com-  
mitted.

Every time an offense against the  
law is perpetrated, whether it be of  
minor or major degree it reaches  
into the pocket of every citizen and  
takes therefrom, in cold cash either  
so many cents or so many dollars as  
the case may demand.

We deprecate it but do not meas-  
ure crime for what it is. We look  
upon it as merely an infringement or  
assault of one or more persons upon  
others, individually or collectively,  
and in one way or another—as a  
check to the human sensibilities. It  
is all of that and far more.

It is a money tax of burdensome  
size. It is something that we permit  
to be forced on us and for which we  
must and do pay in cold, hard cash.  
It is something that impoverishes us

not only morally, physically and  
mentally, but financially.

The remedy is in the hands of civ-  
ilization everywhere. That crime's  
repulsive face leers at us from every  
angle is our fault and ours alone.

And we pay a heavy price for that  
leer.

THE CALL TO ARMS

While there will continue to be  
wide differences of opinion as to the  
necessity of National Defense Day  
next Friday, the fact that the state  
has embraced the movement and has  
signified its intention of adopting the  
War Department's suggestion calls for  
a hearty response to the imaginary  
call to arms. State pride calls for  
devotion to the duty of the day and  
Virginia with its proud record of man-  
power offered and availed of during  
the war cannot afford to be laggard  
or low in the roster of states when  
the final analysis of the day's service  
is recorded. The registration on that  
day will be little more than a for-  
mality and the report which has  
gained currency that there is a "trick  
in it" and that those who sign up un-  
der the mobilization call will be bind-  
ing is as fallacious as it is absurd.

The undertaking is merely an experi-  
ment to test the potentiality of the  
nation in the event of a national  
crisis designed on the day when Gen-  
eral John J. Pershing retires from  
active service. The General of the  
Armies has devoted himself since the  
war to organizing an adequate de-  
fense and the test is simply to see  
how effectively it would work and to  
reveal possible short comings in the  
machinery of organization.

Where will Danville be found in  
the list of state cities when the check  
up on the response is made?

ANVIL SPARKS

Agency finds married men make  
the best collectors, perhaps because  
they know all the excuses.

A snail travels a foot in four min-  
utes, reports an investigator. But  
contrary to rumor, this is not as fast  
as a street car.

In Bulgaria, the king works his  
own garden plot, which is much bet-  
ter than working international plots.

Los Angeles professor who says  
most people are only 13 years old,  
must think he is 14.

They took eight scratches in the  
head of an Indianapolis (Ind.) diver  
who thought the water was deep  
enough.

Chicago girl ought to be signed up  
by some ball team as a pinch hitter.  
Cop pinched her and she broke his  
nose.

We never had a Mexican jumping  
bean, but in Texas they caught a  
Mexican jumping bean.

Movie star claims she has an ideal  
husband. Those movie stars will say  
anything to get publicity.

All work and no vacation makes  
Jack a mad boy.

Took a letter nine days to go from  
Detroit to Los Angeles, so maybe a  
husband mailed it.

Lies show every fish weighing over  
a million pounds has gotten away  
about a thousand times this summer.

Never let the flies eat with you.  
In spite of their good breeding they  
have no table manners.

Miami (Fla.) motorman wants a  
divorce, saying his wife refuses to  
talk to the motorman.

Nice things about hot weather is  
nothing worse can come along to  
take its place.

How To Keep Well

By Dr. W. A. Evans, Professor Chicago University.

(Questions pertinent to hygiene sanitation and prevention of dis-  
eases, if matters of general interest, will be answered in this column.  
Where space will not permit, or the subject is not suitable, letters will be  
personally answered to proper limitations, and where a stamped, address-  
ed envelope is enclosed, Dr. Evans will make diagnosis or prescribe  
for individual diseases. Requests for such services cannot be answered  
Address Dr. Evans, care The Bee.)

Candied Medicines.

Children do not like to take medi-  
cines that offend the taste and espe-  
cially those that are bitter. It often  
happens that a child needs to take  
medicine for malaria, yet it can neither  
consciously swallow a capsule on the  
one hand, nor keep down a dose of  
liquid quinine on the other.

Quinine in cold coffee was a mighty  
power substitute because of the one  
hand no child likes cold coffee, and on  
the other the quinine in cold coffee is  
not much superior to quinine alone.

Finally, the pharmacist found a way  
out. There are several methods now  
available for giving quinine in a palat-  
able form. Among the most effective  
of quinine that are effective on the  
one hand and that appeal to the  
palate on the other.

Our old friend castor oil made no  
appeal to the youth of the land until  
some one learned that castor oil given  
in a glass of fountain soda water or  
in cold coffee was not unpleasant. The  
use of iodine with children as a pre-  
ventive of scurvy was threatened be-  
cause the taste of iodine of soda was  
objectionable. Now iodine is made  
into chocolate and tablets of various  
kinds and the children cry for them.

Dr. Evans and Snow suggest a  
sweet tablet of quinine composed of 4  
parts quinine and 24 parts saccharin.  
It gives the desired iodine and it  
tastes good. Dr. Evans has been  
working on methods of making candy  
medicines for a long time and his book  
"Candy Medicines" is a valuable work  
of formulas. Among the sweet  
quinine tablets is one that give which  
is made with artificial honey, alcohol  
solution of saccharin, bicarbonate of  
soda, and cacao sugar.

Among other medicines which they  
make into candy confections, accord-  
ing to reports made since the book  
was written, are: Iron and arsenic,  
acetylsalicylic acid, salicylic acid,  
digitalis, ipecac, urotropin, terpin,  
thyroid, calomel, salicin, phenolph-

thalein, bicarbonate of soda, sulphur  
and cream of tartar and charcoal.

There is nothing new about giving  
candy, but few people have  
thought of the plan to give ipecac and  
sulphur and cream of tartar that way.  
Digitalis and terpin cough drops are  
two other old time terrors which some  
people will be glad to know can now  
be clothed in garments of sweetness.

The base of most of these sugar  
tablets is cacao sugar. This is com-  
posed of 20 parts powdered cacao and  
80 parts sugar with 10 per cent. spirit  
of cinnamon for flavor. "Wherever  
more sweetness is needed than sugar  
affords, Dr. Evans uses a little sac-  
charin. Saccharin is sweet, but  
sugar is not so sweet. We must be  
careful, especially with babies,  
not to learn to laugh about it. It is  
capable of fermenting.

Laugh It Off—And Be Careful.

W. A. C. writes: Every summer  
when I take any exercises that causes  
me to perspire to any extent, I break  
out all over with wheals, which ap-  
pear very much like hives. After two  
or three days the wheals turn red  
and form water blisters. The blisters  
itch to such an extent that I have tried  
everything I can think of and have failed  
to get relief. I have tried dieting, with-  
out result. I am in fine health other-  
wise, eat and sleep well; feel like a  
fighting cock except every year when  
this trouble makes its appearance. I  
never have it in the winter time.

This is a form of "Hicaria." I don't  
know what you can do about it.

Since it does not disturb you greatly,  
since there is no danger from it, and  
you can do nothing to prevent it, I  
don't know what to tell you. I know  
a man who breaks out as you do, but  
only when he swims in cold water. He  
works the laugh philosophy. He never  
he keeps away from cold water swim-  
ming.

## The Referee

By ALBERT APPLE

BETTER

The iron and steel industry is a  
tenth of a century old, but it is a  
month ago it's still operating, half-time or  
a bit better. Recovery from dull  
times is not taking place with spec-  
tacular speed. Instead there's a  
gradual and steady improvement—  
which is very "healthy."

Study these periods of business de-  
pression and learn that they are  
mainly due to fear. That's why  
there can never be too much opti-  
mism, for optimism is courage.

KILLED

People killed at railroad grade  
crossings in 1933 totaled 8582. This  
is Uncle Sam's official figure. Killed  
one by one, they attracted no great  
furore. If a single accident killed  
8582 the country would be alarmed  
into action.

The logical action, of course, is  
elimination of dangerous grade  
crossings as rapidly as possible.

Meantime, motorists and drivers  
should play safe—exercise even more  
caution than seems necessary. Chalk  
"8582" on your windshield.

DEBT

Another big campaign, European-  
generated, to induce Uncle Sam to  
cancel war loans to Allies, is about  
ready to be "sprung." The usual  
scheme is for France to "forgive" Italy,  
Italy, England forgive France, and so  
on. Unfortunately, there is no one  
to forgive us. We'd be left hold-  
ing the bag.

Money loaned to Europe was  
raised by selling Liberty Bonds. If  
the loans are canceled, the bonds  
could only be paid off by increased  
taxation.

FLYING

Airplanes from all over the world  
will take part in the international  
air races at Dayton, Ohio, in October.

The main prize, of course, will be  
for speed, since flying so far is  
chiefly a sport. When the goals are  
safety and cheap construction, in-  
stead of speed and high altitudes, the  
flying industry will begin developing  
a dozen times as fast as now.

It was the cheap car, not speed,  
that "made" the auto industry. His-  
tory will repeat with planes.

SPRAY

Not all the flying machines are  
confining their activities to circus  
stunts. One plane in southwest  
Texas is spraying poison dust to kill  
boll weevils, at \$1.30 an acre. The  
plane flies about 10 feet above  
ground.

A lady \$130 an acre for the poison  
and its distribution by airplane! It's  
a remarkably low price, compared  
with hand spraying. Isolated cases  
like this part the curtains and re-  
veal how useful the airplane will be  
in the future.

Application of planes to poisoning  
destructive insects is far more im-  
portant than any round-the-world  
flight.

REPORTS OF MEXICAN RENO  
SAID TO BE EXAGGERATED

HOUSTON, Tex., Sept. 6.—A re-  
port that Progresso, Mexico, has be-  
come a Mexican El Reno and that di-  
vorces are easy to obtain on almost  
any grounds and at any residence  
has become so widespread that the  
agents of a Galveston steamship line,  
whose ships touch at Progresso, have  
been besieged with requests for pas-  
sage to that port.

Hernandez Valdes, Mexican con-  
sul at Houston, however, is not sure  
that the information is accurate. Gen-  
erally speaking, Mr. Valdes said, di-  
vorces are governed by a federal  
statute passed in 1917 which re-  
quires residence of approximately one year  
for the divorce petitioner.

SAW LAKE DRAGON

EDINBURGH, Scotland, Sept. 6.—  
A lake resort north of Edinburgh was  
thrown into a turmoil when a canoe-  
ist reported that a huge water dragon  
had raised its head in the middle of  
the lake. The "alarmists" sent sen-  
tinel boats to guard the lake for three  
days. The dragon was later discover-  
ed to be a painted one on a sign-  
board along the shore.

Many a politician bent on running  
for office is broke after he runs.

Almost any man will lie about how  
truthful he is.

REPT

The prospect of going to jail did  
not disturb the Wreck. He did not  
take it very seriously. The main  
take it was going back to peace  
and happiness. Whenever they got  
through with him he would go back  
to Pittsburgh, where he might forget  
about things—or might not be made  
before that everything must be made  
straight and smooth for Sally Mor-  
gan. Engaged to her? He laughed  
at himself. Not that there was any  
mirth in it, but it was a form of  
self-mockery for which he was in  
the mood.

The cavalcade was in the woods,  
where Sally found it easier to follow  
the trail than she expected.

Presently they came to a splitting  
of the trail and Sally could not be  
certain of her course.

Then she came to a second spot  
where there was a confusion of foot-  
prints and hoofprints, and this she  
knew to be the place where she and  
the Wreck had discovered their  
mounts.

In the end, retracing of a wander-  
ing trail brought them to a place  
which Sally and the Wreck instantly  
recognized. It was the camp of the  
three-man gang. There was little  
left but soaked embers, but there  
was no opportunity for mistake.

The sheriff dismounted and exam-  
ined the place carefully. He had  
noticed closely what Sally explained  
everything, including the affair of  
Denver and the thunderstorm. She  
seemed to stress the part the Wreck  
had played.

The Wreck left the telling all to  
her. When the sheriff began walk-  
ing to and fro, studying the deserted  
camp, the Wreck found himself side  
by side with Sally. It was their first  
proximity since they had mounted the  
horses at the foot of the hill, miles  
back. He moved uneasily in his sad-  
dle.

He glanced at her, because it seem-  
ed difficult not to do so. Sally  
smiled encouragingly. But the smile  
cooled him of his wit.

"It's a nice day," he said.

She glanced up at the sky, through  
the tree-tops. It was blue and laugh-  
ing now.

"Not so warm as yesterday,"  
he said.

"No, not so warm."

He made a nervous gesture that  
meant nothing in particular. She  
noticed it, but he was likely to be warmer  
tomorrow.

"Yes," said Sally.

"And it probably won't rain."

"Probably not."

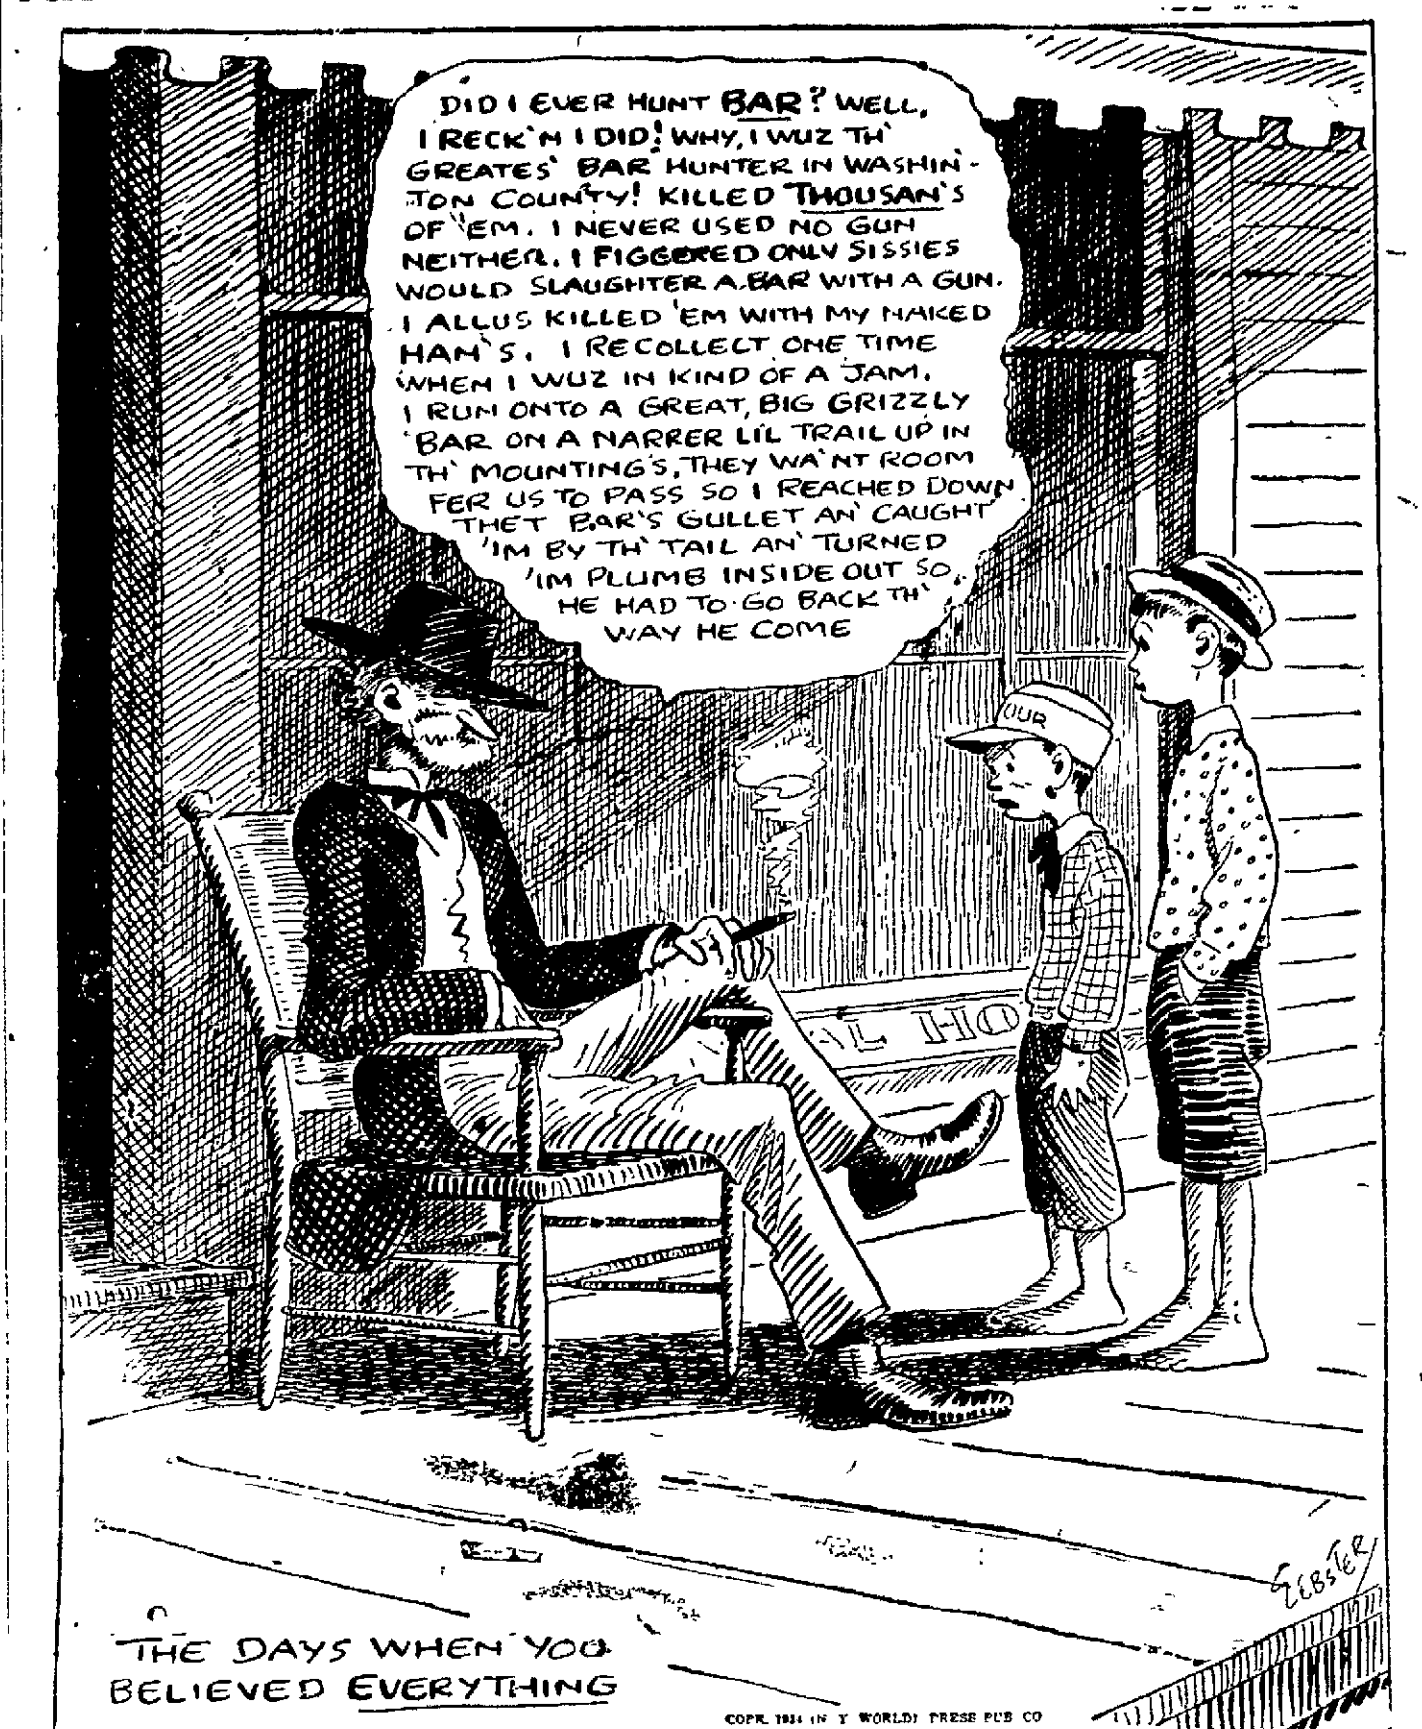

The conversation had exhausted  
everything he dared to say. But she  
would not let him alone.

"I think," she said, "that the rest  
of the summer won't be quite so hot.  
It gets cooler at night, you know."

"It-huh."

"But, of course, we can't tell. We

THE NERVOUS WRECK

by E. J. Rath

©1934 - by NEA Service Inc.

SYNOPSIS

The "Nervous Wreck," a neocen-  
tric young easterner, is driving Sally  
Morgan from her father's ranch to  
the station where they run out of  
gasoline. At the point of a gun the  
Wreck takes five gallons from a  
passing car.

They are held captive at a ranch  
owned by Mr. Underwood, who was  
in the car which they held up. They  
finally escape from the ranch, run  
into a camp of real bandits, are cap-  
tured a second time, and then escape  
again.

Fleeing from the bandit  
camp, they are confronted by Sheriff  
Bob Wells and a companion. Wells,  
who is Sally's fiancé, had been lead-  
ing a search for the "bandits" who  
held up Underwood. Angered at the  
sheriff, Sally breaks off the engage-  
ment and goes to marry the  
Wreck. The sheriff promptly  
places the Wreck under arrest, and  
they move away.

NOW GO ON WITH THE STORY

The prospect of going to jail did  
not disturb the Wreck. He did not  
take it very seriously. The main  
take it was going back to peace  
and happiness. Whenever they got  
through with him he would go back  
to Pittsburgh, where he might forget  
about things—or might not be made  
before that everything must be made  
straight and smooth for Sally Mor-  
gan. Engaged to her? He laughed  
at himself. Not that there was any  
mirth in it, but it was a form of  
self-mockery for which he was in  
the mood.

The cavalcade was in the woods,  
where Sally found it easier to follow  
the trail than she expected.

Presently they came to a splitting  
of the trail and Sally could not be  
certain of her course.

Then she came to a second spot  
where there was a confusion of foot-  
prints and hoofprints, and this she  
knew to be the place where she and  
the Wreck had discovered their  
mounts.

In the end, retracing of a wander-  
ing trail brought them to a place  
which Sally and the Wreck instantly  
recognized. It was the camp of the  
three-man gang. There was little  
left but soaked embers, but there  
was no opportunity for mistake.

The sheriff dismounted and exam-  
ined the place carefully. He had  
noticed closely what Sally explained  
everything, including the affair of  
Denver and the thunderstorm. She  
seemed to stress the part the Wreck  
had played.

The Wreck left the telling all to  
her. When the sheriff began walk-  
ing to and fro, studying the deserted  
camp, the Wreck found himself side  
by side with Sally. It was their first  
proximity since they had mounted the  
horses at the foot of the hill, miles  
back. He moved uneasily in his sad-  
dle.

He glanced at her, because it seem-  
ed difficult not to do so. Sally  
smiled encouragingly. But the smile  
cooled him of his wit.

"It's a nice day," he said.

She glanced up at the sky, through  
the tree-tops. It was blue and laugh-  
ing now.

"Not so warm as yesterday,"  
he said.

"No, not so warm."

He made a nervous gesture that  
meant nothing in particular. She  
noticed it, but he was likely to be warmer  
tomorrow.

"Yes," said Sally.

"And it probably won't rain."

"Probably not."

The conversation had exhausted  
everything he dared to say. But she  
would not let him alone.

"I think," she said, "that the rest  
of the summer won't be quite so hot.  
It gets cooler at night, you know."

"It-huh."

## Scoop's Colyum

DRAKES BRANCH, September

6—(Grapevine Wireless.)—The bob-  
bed hair craze has hit the bar coun-  
try and turned things  
topsy turvy, according  
to our Pleasant Gap  
correspondent.

Here's a query from  
my good wife, Mrs.  
Windy Wolf: To bob or  
not to bob, that is the  
question, whether it is  
superior on the head to  
suffer the nets and hair  
pins of yester fashion or  
by bobbing shed them.

To cut, to curl—to curl,  
aye, there's the rub.

Damn it, whether doth  
make cowards of us all, for curls may  
not stay curled when we have bobbed  
off our shining coil. Must give us  
pause: the permanent wave, it is  
however, of not so long life. For it  
will not bear the wear and tear of  
time, but it too soon grows old and  
many dollars from the

## Today's Radio Program

### PROGRAM FOR SEPT. 6.

**COURTESY OF RADIO DIGEST**  
(By The Associated Press.)

WMAQ—Chicago News (447.5) 5:30 orchestra; 8 theatre revue.

WQJ—Chicago (448) 6 vocal, pianist; 6:15 a. m. orchestra.

KYYW—Chicago (526) 6 concert; 7 musical; 8 talk; 8:05 Youth's Companion; 9:15 late show.

WLS—Chicago (345) 6:45-12 Isham Jones' National Barn Dance.

WSAI—Cincinnati (309) 7 chimes; 7:15 solo; 8 news; 8:15 Hawaiian music; 11 concert.

WEAO—Columbus (360) 12:30 educational lecture.

WWJ—Detroit News (517) 6 News orchestra.

WCX—Detroit Free Press (517) 5 concert.

WOC—Davenport (484) 8 orchestra.

WTAS—Elgin (286) 6:30-12 musical.

WDAK—Kansas City Star (411) 4:30 theatre program.

WOQ—Kansas City Unity (350) 7 Sunday School lesson; 8 musical; 11:15 healing services.

WHAS—Columbia Journal Louisville Times (400) 7:30 concert.

KFI—Los Angeles (489) 8:56 dance; 10-2 a. m. vocal, studio, orchestra.

WMC—Memphis Commercial-Appeal (500) 8:30 program.

CKAC—Montreal (425) 5 bedtime; 5:30 concert; 6:30 concert; 8:30 dance.

WHN—New York (386) 4:30 trio; 5:30 soprano; 5:45 male quartet; 7:30 violin; 8 blind pianist; 8:15 soprano; 8:15 Loew's vaudeville; 8:15 entertainers; 9:30 dance.

WJZ—New York (455) 5 orchestra; 6 bass; 6:15 talk; 6:30 bass; 7:30 orchestra; 4-9 music.

WOR—Newark (405) 4:15 music; 5:20 sports; 6 talk; 6:45 baritone; 8:30 program.

KGO—Oakland (312) 10 artists; 12 orchestra.

WOAW—Omaha (526) 6 piano; 9 musical.

WDAR—Philadelphia (395) 5:30 talk.

WFI—Philadelphia (395) 4 talk; 4:30 orchestra; 6 recital.

WIP—Philadelphia (509) 4:05 dance; 5 talk; 6:30 orchestra; 6:50 band; 8 dance; 9:05 recital.

WCAE—Pittsburgh (462) 4:30 concert; 5:30 bedtime; 7:30 musical.

KGV—Portland (432) 12 orchestra.

KPO—San Francisco (423) 19 orchestra.

WGY—Schenectady (380) 8:30 orchestra.

WBZ—Springfield (337) 4 concert; 4:30 orchestra; 5:30 bedtime; 5:70 KSD—St. Louis Post Dispatch (546) concert; 7 voice; 7:15 violin; 8 orchestra.

WRC—Washington (469) 6:45 Bible; 7 musical.

## RADIO NOTES

### FAN ANNOYS KING

King George could not tune out some troublesome squeals and howls from his private receiver recently, until authorities found a fan near the palace operating a home constructed set that was radiating energy. Besides committing lese majeste, the fan hadn't his set licensed.

### GERMAN RADIO TRAIN

Radio transmission from moving trains was tested in Germany recently. It was a combination of radio and wired wireless in that the signals were made to jump from the train to the telephone lines along the track and thence by direct line to any telephone station called.

### RADIO FOR ESKIMOS

Inhabitants of places farthest north won't be without radio entertainment when Denmark completes its four stations in Greenland. They won't be powerful stations but they'll help entertain a part of the world that has not been as fortunate as those in warmer climates.

### TINY POWER IN LOOP

A fly climbing one inch up a wall uses as much energy as a radio receiving loop collects in a continuous period of 35 years, reports Dr. W. Whitney of General Electric Company at Schenectady, N. Y.

### FADING SOLUTION

Dr. G. W. Pierce of Harvard University has brought out a new kind of crystal which can be made to vibrate as a constant radio frequency and which is said to prevent the shifting of carrier waves or fading.

### CLEANING CRYSTAL

When the crystal gets greasy and dirty, it may be cleaned by washing and scrubbing with a toothbrush dipped in alcohol. After being cleaned it should be allowed to dry.

### 112 ARMY STATIONS

The United States army operates 112 radio stations, 14 of which are of the higher class. The larger stations have a radius of 1000 miles at sea.

### RE-BROADCAST RECORD

When station WGN, Chicago, first went on the air, the owners took phonograph records of the program. Recently the same program was re-broadcast from the records made.

### FREAKS IN GERMANY

The kind of freak sets that came out in America two years or so ago are now making their appearance in Germany. There's the matchbox receiver, one built into a watch case and several others of similar design.

### ORIGIN OF "RADIO"

The word "radio" can be traced back to the Latin from "radius," originally meaning a spoke of a wheel. From the fact that the spokes spread out from a common center, the word "radio" came, and finally "radio."

The original root of this word is said to be the Greek form "ra," which meant "to go."

### ITALIAN SENATE FANS

The Italian Senate is considering broadcasting its sessions. Besides having a microphone at the speaker's stand, there will be a receiving set at the desk of each senator.

### PARIS PREFERS JAZZ

When Radio-Paris got behind schedule recently, it eliminated scheduled programs of Faust and Tannhauser and maintained its original program of jazz music.

### COMPULSORY RADIO

A small portable radio receiver for miners is being perfected by an English mining engineer. He hopes to have its use by every miner in England made obligatory.

## RADIO TABS

A floating radio set for bathing parties has been devised in Germany. Station WCAE, Pittsburgh, has been offering ukulele lessons every Monday night.

Station WHN, New York, has substituted storage battery power for its generators.

French have erected another new station in one of their colonies, this one at Bamako, Africa.

Relay stations at Leeds and Bradford in the British Isles have been put into service.

German insurance companies charge an extra premium for radio antennas. W.H.A. Madison, Wis., is remodeling its station into a sound-proof studio.

America exported nearly \$300,000 worth of radio apparatus to 45 countries last May.

### HONEYMOONERS ROBBED

(By The Associated Press.)  
BUFFALO, N. Y., Sept. 5.—Mr. and Mrs. Francis Furnis, of Asheville, Ohio, were held up and robbed by three unmasked bandits early today in the river road as they were returning to their home from their honeymoon at Niagara Falls. Mr. Furnis was beaten when he resisted attempts of the bandits to take a wrist watch and diamond ring from his wife, after they had rifled his pockets.

### SULTAN'S PALACE

(World-Wide News Service)  
CONSTANTINOPLE, Sept. 5.—The Prefecture of Constantinople is offering for lease for \$1,250,000 the exploitation of the Yildiz Palace, whence the last Sultan fled. Several foreign companies have already made offers. It is planned to constitute it as an amusement centre, turning its numerous kiosks into casinos, hotels, cabarets, and dancing saloons.

## PLEASANT

Here's the young lady who probably put the pleasant in Pleasantville, N. J. She's the town beauty and carried its colors to the Atlantic City beauty pageant.

### GREEK CONSUL DISAPPEARS

(By The Associated Press.)  
CHICAGO, Sept. 5.—Leonid Matlis, Greek consul general here disappeared six weeks ago and still is missing. Information has leaked out.

A new consul general, Vosul Memmon has been named. He assumed his duties yesterday.

Rust spots on metal should be rubbed with a cork that has been dipped in paraffin.

## Faulkner Boasts of 30 Children

(By The Associated Press)

WESTBURY, N. J., Sept. 6.—Short stocky ruddy of complexion with a wealth of English accent Jimmy Faulkner, stud groom for the British International polo team, is a man of parts. Looking not a day over fifty, Jimmy can boast of seventy one years. The little Englishman has been married twice and is a true disciple of the late Theodore Roosevelt, with a strong disapproval of race suicide. He proudly boasts of no less than thirty children, 14 boys and 16 bonny girls. Five of his sons gave their lives for England in the world war, and when Jimmy talks of this it is with a flashing eye that speaks volumes.

A great responsibility rests on the broad shoulders of Faulkner, who with a string of forty-six polo ponies to look after, finds himself busy from morning till night. Every pony in the string is under his direct care and receives all the attention of a pampered child.

When asked how he thought the English mounts compared with the American string, Jimmy gave it as his opinion that while the horses of the American players were a bit faster on the getaway and slightly heavier than his charges, the English ponies were quicker in making sharp turns and better trained in following the ball.

"A sporting chance" is the way Faulkner put it when questioned regarding the chances of the team in the coming matches. And America knows that a sporting chance with an Englishman is a fighting chance.

## ILL. HAS MANY BANK ROBBERIES

CHICAGO, Sept. 5.—Illinois has eight times as many bank robberies as New York and Pennsylvania together. Both New York and Pennsylvania have State constabularies, while Illinois, due to the political influence of unions and the hostility of labor runners, has been unable to establish State police.

Robbing banks in small cities is almost a daily occurrence. There are frequent raids on outlying Chicago banks and yesterday robbers cleaned out a bank in Springfield, the capital.

The situation has become so serious, especially in the Southern portion of the State, that banks keep their doors locked at all times, with armed guards inside and out and entrance is gained only upon strict identification. Some banks also are being equipped with secret chambers, in which guards with repeating rifles are stationed during business hours. These riflemen have a view of every part of the bank. By pulling a lever they can automatically close and lock every door and window.

The Illinois Bankers Association and the State Chamber of Commerce are renewing agitation for the formation of an adequate State police force. With police on all roads, it would not be so easy for robber gangs to get away after their depredations.

## In New York

NEW YORK, Sept. 6.—Lower Fifth Avenue at noon. New York is almost human. Shop girls taking a stroll after a hasty lunch, actually smile. Madison Square thronged with lunch-hour youngsters. It is working people's hour on the avenue. Window shoppers, stenographers peering at the display window flery of shops they dare not enter. The price of a dress would pay their living expenses for months. Growth on corners discussing questions of the day. A community interest on a chilly street. An urchin whistling. One haughty woman. Everyone laughs at her. She seems out of place on the street that belongs to her. But it is only noon. In three hours it will be hers. Then the shop girls will be out of place. In the evenings they sneak from their work to their home. At that hour the avenue is aglitter with the tinsel of aristocracy. Expensive limousines with liveried chauffeurs and footmen. Foppish men. High hats, monocles, white spats, frock coats, and black expressions. Monkeys on a string. Human lap dogs for doting womanhood. At the stroke of six o'clock the shades of display windows in exclusive shops are lowered. Gazes of the hot polio are not wanted. The fiery display is for other eyes.

Bathers on Long Island are encour-

tering a new peril. And it isn't sharks. Swimming around in the moonlight, the other evening a bather fractured his arm on a case of Scotch whiskey floating in the surf. Five other derelict cases were located in the vicinity. Since then there has been a mad search for rum row floaters.

Richard Enright is 38, weighs 310 pounds and is 6 feet 6 inches tall. He dislikes women but loves babies. He found a babe abandoned in a hedge the other night. Now he wants to adopt it.

Enright is a stone gargoyle.

Fred Young, blinded by the glare of Broadway lights, ordered a taxi driver to wheel him to his estate in Montreal. When he got there he turned around and came right back again.

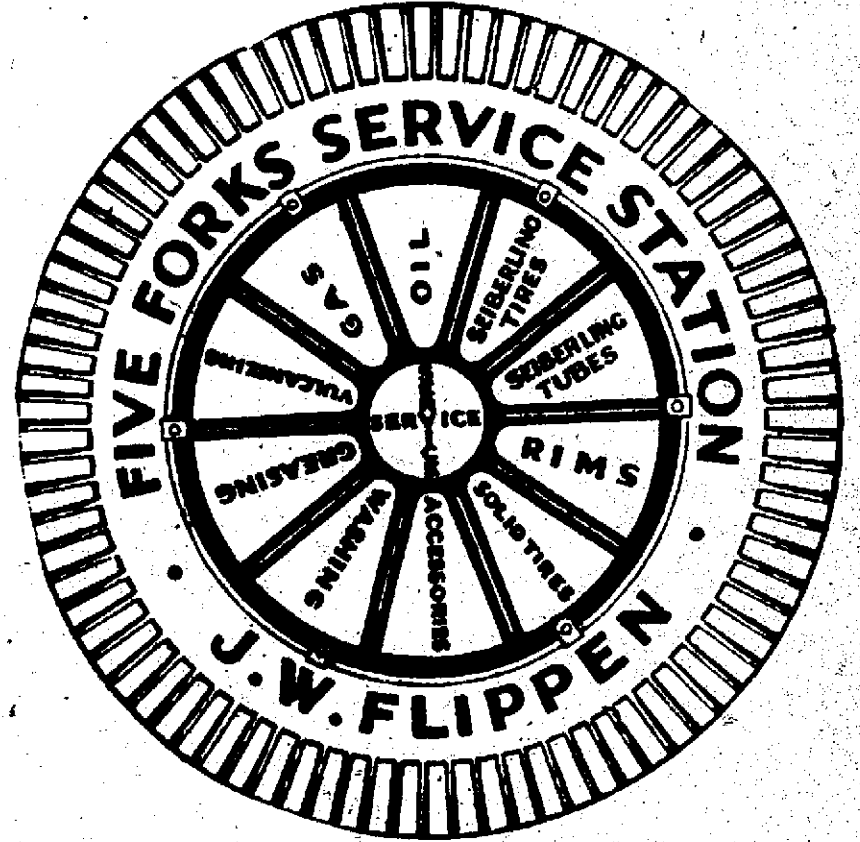

The bill was \$275. Young has neither estate nor money. An officer was called.

Young was liberated and will pay for his expensive ride on the installment plan.

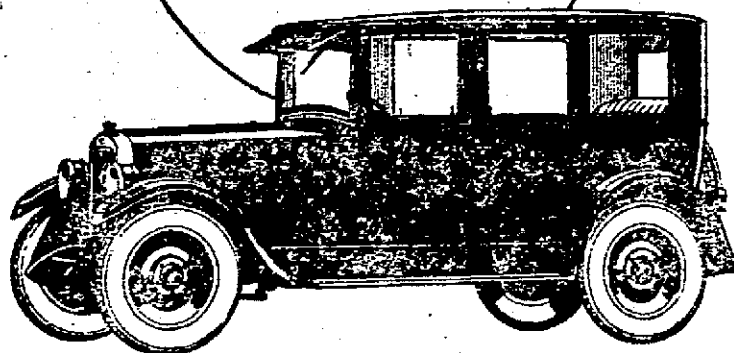

STEPHEN HANNAGAN.

The time required for sound to pass to the ocean bottom and back can be measured by a newly invented device.

**CHICHESTER'S PILLS**  
THE DIAMOND BRAND  
Chichester's Pills are the only pills in the world that are made of pure, refined, and tested materials. They are the only pills that are sold in the United States and are known as the "Diamond Brand" pills. They are the only pills that are sold in the United States and are known as the "Diamond Brand" pills. They are the only pills that are sold in the United States and are known as the "Diamond Brand" pills.

Your kind of a closed car—this True Blue Sedan

THE True Blue Oakland Sedan is built for people who know that the kind of a closed car they want cannot be built to sell at an open-car price.

It is built for those clear-thinking men and women who look straight through a "closed-car" label to the body that carries the label.

For people who want a car built to definite ideals of quality without any compromises.

This Sedan has style—sparkling, heart-warming, captivating style. It has a body structurally identical with the closed bodies of cars in the three thousand dollar class.

All Oakland bodies, closed or open, are built by Fisher to the same uncompromising standard of excellence.

This body is finished in Duco from top to bottom—a beautiful lustrous finish that will stay that way.

It has the new Fisher one-piece ventilating windshield—a life saver on suffocating days—rain proof in a cloudburst!

It has all the True Blue Oakland features of motor car enjoyment—a year in advance of its field in precision of manufacture, in performance, and in riding and driving comforts.

See it—ride in it—compare its performance—look at the workmanship. Oakland has built you your kind of a closed car—and is selling it at a very modest price.

# The lure of the gusher

Do you realize that one out of every four oil wells never produces a barrel of oil? Do you know that the average production of all oil wells is only 6 barrels a day? Do you know that 85% of all "wildcat" wells are dry? Yet "wildcat" wells must be drilled, for they are our only hope of finding new oil fields to supply the ever increasing demand for gasoline.

THE glib salesman of oil stocks always talks of gushers, of wells that will earn huge fortunes just as soon as they "come in". If they "come in", would be more appropriate. Last year over \$91,000,000 was spent in the United States in drilling dry wells. The year before it cost the country \$82,000,000. Drilling for oil is a risky business, riskier than any other form of mining, one which only a substantial and efficiently organized industry can afford to take.

The lure of the gusher has cost many a man his hard earned fortune. The oil industry of America is built on a less spectacular but more solid foundation. The average production of the country's oil wells is only six barrels a day. Carefully managed, scientifically refined, efficiently distributed, as only a conservatively operated industry can do it, even this modest production has kept 15,000,000 cars supplied with gasoline and oil at a reasonable price.

The Standard Oil Company [New Jersey] renders a complete service to motorists. Besides supplying perfect gasoline, lubricating oils, and greases it does much to make your motoring easier, safer and more interesting. From the Hudson to the Savannah, from the Ohio to the sea, you will find "Standard" road markers to show you the direction and distance to your destination, "Standard" danger signs at many dangerous crossings, "Standard" charts to tell you the correct consistency of oil for your engine, and "Standard" tour information describing places of interest for you to visit.

STANDARD OIL COMPANY  
(New Jersey)

# "STANDARD"

"Standard" is the trade mark of the Standard Oil Co. (N. J.), registered in the U. S. and many foreign countries

# Church Notes

Moffett Memorial Baptist church, C. J. D. Parker, pastor. Sunday school at 9:30 a. m. T. W. Wilkins, Supt. The pastor being out of the city there will be no preaching at the morning hour, but at night Rev. W. H. Hollowell will preach at 8 o'clock. Let all turn out and hear him.

**ANOTHER PROWLER REPORTED**  
A telephone message to the police last night from Sutherland avenue reported another suspicious prowler around the premises of a resident of that street. Response to the call was quickly made, but the intruder had vanished. The demand for buckshot shells is growing.

**STORM WARNINGS UP**  
(By The Associated Press)  
WASHINGTON, Sept. 5.—The weather bureau announced tonight that storm warnings remain displayed on the Atlantic coast from Sandy Hook to Eastport, Maine.

## AT HOME AT SEA

"How come?" inquired boat officials when pretty Pauline Blair boarded the ship bound for Europe attired in this neat but not gaudy costume. She explained she had promised to respond to farewells of friends by doing a toe dance on the anchor instead of the more conventional Chautauqua salute and tears. The commander of the ship called off the dance and Miss Blair retired to her cabin and donned civilian attire.

## SOCIALISM IS ISSUE IN MINN.

So Declares W. L. Harding  
in Criticizing  
La Follette

(By The Associated Press)  
MINNEAPOLIS, Minn., Sept. 5.—The issue in Minnesota is "whether you are going to have socialism," declared W. L. Harding former governor of Iowa in an address here last night to leading Republicans of Minn. Mr. Harding criticized the presidential candidacy of Senator Robert M. La Follette of Wisconsin.

"The issues in this campaign are not new," said Mr. Harding. "The struggle for liberty has gone on for years. Yet in this hour we have a man who has nominated himself who has written his own platform and who has notified himself of his own nomination."

"Bob La Follette is the candidate of the socialist part. The issue in Minnesota is whether you are going to have socialism."

"When the decline begins we'll go down rapidly. You've got to buckle on your armor and get out and fight. Not with swords but with you interest in a sound ideal government."

"The main thing for the Republicans of Minnesota to do is to get behind their whole party ticket," he said.

## RUSSIA TAKES SERIOUS VIEW OF CHINA'S WAR

Soviets to Remain Indifferent,  
Rothstein Declares

MOSCOW, Sept. 5.—Soviet Russia takes a serious view of China's affairs and is not going to remain indifferent, says M. Rothstein, member of the presiding committee of the foreign office and chief of the press department in an official statement to the foreign correspondents.

"We have full ground to suspect that some arrangement was arrived at between the great powers as regards China during Secretary Hughes' stay in London," the statement asserts. "This action was contemplated long ago but America hesitated to make up her mind, until the Russo-Chinese agreement."

"We believe that the United States abandoned its policy of the open door and decided to divide zones of interest in China. It seems that England receives the South, France the province of Uman and Japan Manchuria."

The position of Japan was not yet clear, said Mr. Rothstein, but certain action of Manchuria indicated that Japan had been given permission to occupy it.

"Whatever schemes the powers have arrived at," he added, "Soviet Russia is going to raise protests as, being a neighbor to China, it affects Russia closely and fills here with great anxiety."

M. Rothstein took occasion to deny that the Russo-Chinese treaty contained any secret clause.

The form of action Russia is to take has not yet been decided. Possibly the Moscow government will propose a conference and it would certainly participate in one if invited.

## "MARRIAGE LAW OUT OF DATE"

PARIS, Sept. 5.—"Marriage in its present form does not correspond to modern ways of life," is the statement of Maitre Maria Verone, the brilliant woman lawyer, in reply to an inquiry addressed to French celebrities regarding the advisability of making the marriage bond more flexible.

"The economic and social position of Frenchwomen has been profoundly modified in the last few years," says the woman lawyer, "but their legal position as wives has remained practically the same. It is necessary to give married women the legal right to more personal freedom."

"Insanity should constitute a ground for divorce. It is cruelty to bind a normal being to a madman and so help to create irregular unions in which children are regarded as undesirable. Cheaper living and healthier housing are the most effective means of increasing the birth rate."

—World-Wide.

(By The Associated Press)

CHRISTIANIA, Sept. 5.—Roald

Roald Amundsen, Arctic explorer, today filed a voluntary petition in bankruptcy.

## SMOOTH PERFORMANCE

A marked smoothness characterizes the performance of Dodge Brothers Motor Car.

In keeping with the policy of constant improvement, effective measures have been taken to minimize vibration. Applied to the body, engine, clutch, brakes, and other vital units, these refinements add immeasurably to the comfort of travel over boulevards and country roads.

The effect is so pronounced, in fact, that it is entirely fitting to classify smooth performance as one of the outstanding attributes of Dodge Brothers Motor Car.

## WILLYS-KNIGHT

Conquers the Vibration So  
Common in Motor Cars

From across seas, Willys-Knight imports a motor device that solves a problem as old as the automobile industry. It does away entirely with the engine vibration that manufacturers have sought for years to cure.

Willys-Knight announces the installation of this epochal invention as standard equipment and invites the public to test its amazing efficiency.

## The Lanchester Balancer

This British invention, as simply amazing as it was long sought, gives Willys-Knight a new smoothness, a riding ease that brings the car to the peak of perfection.

It gives Willys-Knight an improvement that is considered a mark of supremacy in one of the highest priced foreign cars.

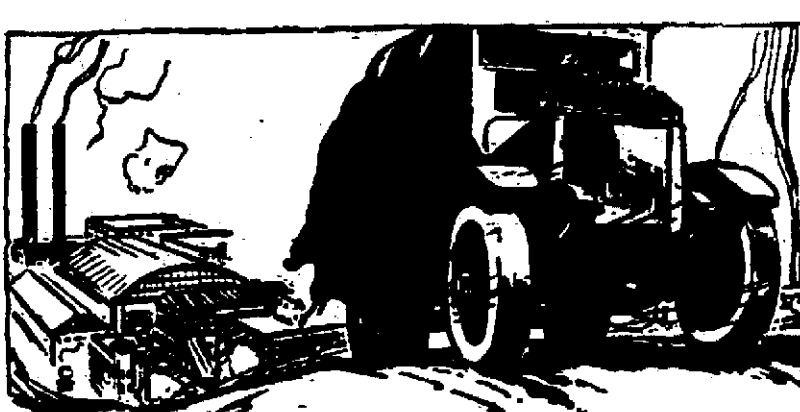

Appearance — Performance — Power! And the famous sleeve-valve engine that improves with use! Now, the very last word in smoothness—velvety action at all

speeds—elimination of the vibration that is the cause of so much nerve lag among so many automobile owners.

You will know, with a Willys-Knight, a new pleasure in driving, a greater pride of possession. Willys-Knight increases both its efficiency and its appeal. It brings a bigger, better value than ever to its public.

The Willys-Knight with Lanchester Balancer is here. One trial will reveal its excellence to you.

## SHOULDER FLOWERS

LONDON, Sept. 6.—A little bunch of artificial flowers pinned on the shoulder and matching the hat is the latest fad of Dame Fashion. Roses have proved to be the most popular flowers for this purpose. The combination has become one of the most notable features of the fashions displayed on the Strand.

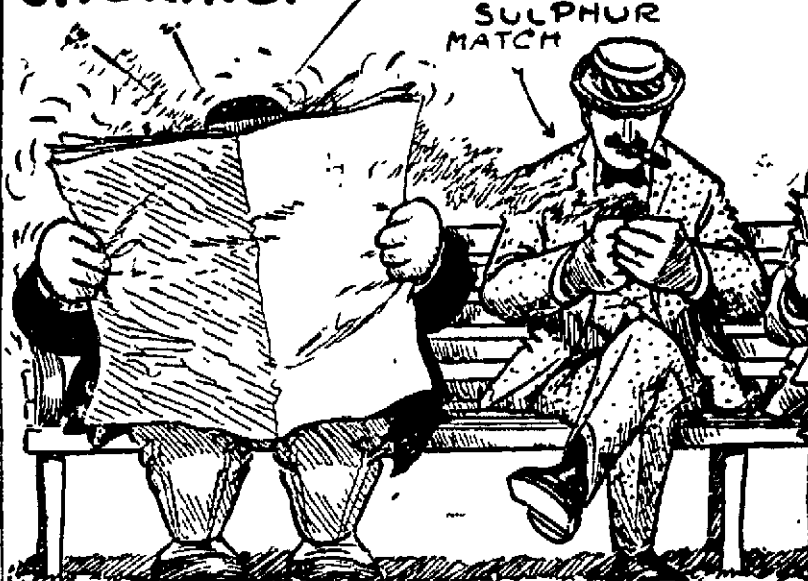

## NEW FASHION

PARIS, Sept. 6.—Fashionable Parisian women are giving their gowns the "Marie Antoinette touch." This mode consists of a new way of wearing the scarf. It is folded, shawled, and then the end folded under again, after which it is tucked into the neck in front.

## NEWS OF ALTAVISTA

ALTAVISTA, Va. Sept. 5.—L. O. Miles had the misfortune to sustain an injury last Thursday when he fell from the Chevrolet truck of E. A. Smith & Co. While he attempted to step on the running board of the moving vehicle he missed the narrow board and fell beneath the rear wheel. A gash in the side and an injury to the nose were the greatest injuries. He returned to work Monday.

Quite a delightful entertainment was experienced at the home of Mr. and Mrs. E. T. Yeaman last Tuesday evening when Mr. Yeaman entertained his Sunday School class, which consisted entirely of boys.

One of the contests was the contest on the works of art in which the whole class participated while the prize was awarded to Junius Scoggins and Miss Elizabeth Arthur.

Another very interesting contest was the contest on the penny, which prize was given to Claude Stoner and Miss Morgan. Both prizes consisted of candy and the winners were so liberal as to divide with the others. At a later hour refreshments were served.

Those present were: William Frazer, Edward Yeaman, Guthrie Crawford, Junius Scoggins, Thomas Yeaman, Claude Stoner, Henry Burnette, Cuyler Smith, and Misses Margaret Vaughan, Louise Vaughan, Elizabeth Arthur, Essie Baker, Mrs. P. M. Peerman and Miss Morgan of Gladys.

Saturday afternoon the local Textile league motored to Gladys and played their best game of the season defeating Gladys by the score of 1-0.

The game was well played throughout the entire game and only 9 hits were allowed in the game. Seven being placed to the credit of the Textiles while Gladys secured only 2. Bailey for Gladys and Yeaman for the Textiles composed the pitching staff and both pitched an excellent game.

The locals had the best line-up that they have had this year and they are in the hopes that they will be able to keep the same on.

Very few men on either side succeeded in getting farther than second as they were either thrown out on first or they died on the base.

The game was scheduled to be played here but as the home grounds were occupied the local club wired for the game at Gladys and were able to get it there. They will cross bats with this team here next Saturday.

Score by innings: R H E Altavista . . . 000 100 000—1 7 2 Gladys . . . 000 000 000—0 4 2 Ironista Shanks is spending this week in Danville visiting relatives.

Miss Kathleen Collins of Burlington, N. C. is the guest of Mrs. W. M. Smith.

Mr. and Mrs. A. M. Ritsch are moving into the house formerly occupied by Mr. and Mrs. R. W. Inskip.

The many friends of Mrs. R. W. Palmer will be glad to hear that she stood the operation fine and that latest reports are that she is improving. Tom Morgan returned from the

## SPEED VICTIM

Lieutenant Alex Pearson, army ace, shot through the skies like a comet, making a new speed record. His plane was doing 285 miles an hour. Then something happened. Plane and pilot crashed to the ground. Pearson was dead when brother aviators reached him. He was testing a racer at McCook Field, Dayton, O.

summer school at V. P. I. last Sunday. He has finished the course in engineering and will be awarded his diploma next spring.

Mr. R. W. Inskip left Sunday to take up the duties of his new position with the Virginia Table Co., at Marion, Va.

George Roark arrived Friday for a two week visit with his parents before he returns to Bethany College.

Miss Virginia Lane has returned from the University of Virginia where she attended the Summer school.

## NICKEL DISPUTE SENDS MAN UP FOR 20 YEARS

Luther Beverly Convicted of Slaying R. L. Barnard in Patrick

(Special to The Bee)  
STUART, Va., Sept. 6.—A dispute over a nickel which terminated in a murder, has resulted in Luther Beverly being sentenced to serve twenty years in the State penitentiary and he will be taken away from here one day next week to start his long term.  
Beverly was put on trial for killing R. L. Barnard before Judge Gregory of Roanoke, on Thursday, the trial lasting all day, the jury returning a first degree murder verdict within a short while.  
It was in evidence that last May 18, a group of men engaged in a card game at Kibler, the game starting at noon and lasting until six o'clock. Among the players were Beverly and Barnard. Towards the end of the game a dispute arose between the two men over the possession of five cents. Beverly accusing Barnard of taking the nickel and Barnard hotly resenting the imputation. The two men exchanged words until the latter rose from his seat and rose from their seats with the evident intention of making the difficulty a personal one. Before any of the other players could intervene Beverly drew a revolver from his pocket and fired four shots into Barnard's body across the card table. He died instantly.  
The accused sought to show that he shot in defense of his own life, contending that he thought Barnard was about to shoot him. Barnard, however, was unarmed.

### NEW YORK COTTON.

(By The Associated Press)  
NEW YORK, Sept. 6.—The cotton market opened firm today at an advance of 6 to 15 points. Active positions sold about 8 to 17 points net higher in the first few minutes on further pre-government reports covering, stimulated by relative steady Liverpool cables. Temperatures in the south also were considered too low for the best further development of the plant but the bulk met increased offerings around 24.55 for October and 24.25 for December and prices eased off 5 or 10 points. Part of the selling was for southern account, presumably hedging.  
The early demand was supplied by hedge selling and the market later sagged off under commission house liquidation, October declining to 24.50 and December to 24.04. There appeared to be a little more trade buying as December approached the 24 cent level, but rallies were restricted. The market closed irregular at net advances of six to eleven points.  
October ..... 24.63  
November ..... 24.15  
December ..... 24.05  
January ..... 24.25

## Reactionary Prices Featured Market During Past Week

(By The Associated Press)  
NEW YORK, Sept. 6.—Reactionary price movements characterized most of the securities and commodities market this week.

Stock prices yielded readily to the persistent hammering of bear traders who succeeded in uncovering a number of weak spots, particularly among the industrials. Pools showed little disposition to advance their favorites, while public participation was again at low ebb. There was a widespread belief among market observers that the pre-holiday rally had discounted all the good news in sight and that the professional element was awaiting further indications of the drift of political sentiment before extending its commitments.  
Unexpected omission of the American Woolen common dividend was the principal market news development, that stock dropping nearly 20 points from the weeks high to a new low record since 1919. Further proof of the depression in the textile industry was furnished by the default of interest on the outstanding 7 per cent bonds of B. B. and R. M. Knight, Inc., one of the largest New England cotton manufacturers and the postponement of dividend there on the common stock of Daniel Boone woolen mills.  
The weekly steel trade reviews continued to show slow but steady improvement in that industry while pig iron production, which has been on the downgrade since March turned upward again. Steel shares, however, lost ground.  
Railroad shares were mixed with special strength developing in Lackawanna and "Nickel Plate" each of which touched new peak prices on reports that Lackawanna was to be merged with the Van Sweringen family. Railroad carloadings showed a further increase.  
Oils began to show better resistance to pressure on further improvement in the crude oil situation. Sugars also responded to better commodity prices while several of the motors broke through their previous high levels in reflection of the more cheerful sentiment in mid-western automobile centers. Good buying also was noted in some of the tobaccos. Among the outstanding weak spots were Famous Players, Jones Brothers Tea, General Electric and Woolworth.

### MORNING COTTON LETTER

Thomson & McKinnon  
NEW YORK, Sept. 6.—South had clear weather yesterday, and the forecast is clear. Day temperatures mostly pleasant. Night temperatures developed rather cool over entire belt. No rain reported in any district. Forecast: Entire belt generally fair, slightly cooler eastern belt. Department of Commerce reports that Japan is under-selling America on cotton goods in near east, Egypt and South America.  
Moderate business in North Street. J. S. Wannamaker estimates crop at 12,225,000 and says government pars are improperly adjusted. Quite a number of cotton people have their doubts as to the correctness of this year's government pars which are changed every two weeks.  
Look for small market on account of traders awaiting government report Monday.

### MORNING GRAIN LETTER

Thomson & McKinnon  
CHICAGO, Sept. 6.—We believe it will prove unwise to proceed on the idea that a spasmodic export demand will be sufficient to counteract in full the pressure of hedging sales. There is no advantage should be taken of bulge to place selling orders until some new incentive appears to revive speculative buying power.

### POULTRY.

### CHICAGO GRAIN.

(By The Associated Press)

CHICAGO, Sept. 6.—After starting 1-8 to 5-8 cent down with September 1.27 3-4 and December 1.27 3-4 to 1.27 3-4, the wheat market sagged and then underwent a recovery all around. After starting half lower to 1-4 higher with December 1.12 to 1.12 1-4, corn sagged a little and rose to above yesterday's finish. After opening at unchanged figures 31 1-4 cent higher with December 31 7-8 to 32 cents the oats market hardened around the initial figures.
